ACCESSORIES

Clean by Codelocks
Clean by Codelocks provides an optional coating which can be applied to Codelocks products.
The clear, permanent coating combats SARS-CoV-2 coronavirus (COVID-19) and can reduce bacterial growth by 99.96%*, providing an additional measure of protection over sanitization.

Clean
by Codelocks

Weather Shields
PINGuard™ by Codelocks offer flexible, high grade polymer weather shields with additional code protection privacy. Suitable for CL500 and CL600 mechanicals. Polycarbonate weather shields, included in the kit, are required upon external installation of the CL5200 and CL5500 electronic locks.

RFID Access Credentials
Utilizing RFID technology, Codelocks Smart Locks provide flexibility and convenience by offering multiple access options including MIFARE® compatible stickers, fobs and cards.

Custom Finish
The Gate Panic Hardware Kit components are supplied RAL #7035 powder coated and pre-drilled. Custom RAL color options are available. Extended lead times apply. To discuss your installation, contact us.
