Maintenance Requirements

Note: The hinges will operate properly, and warranty is valid, only if installed in accordance with the instructions and specifications shown herein.

- Use only two (2) KwikFit hinges on any one gate.
- Remove all other types of hinges and self-closing devices.
- Each hinge must have equal tension at all times.
- Ensure the gate does not swing through the line of the fence. Use a "gate stop" or a latch (with striker) to prevent this.
- Do not lubricate these hinges with petroleum-based lubricants at any time. Use only powdered graphite.
- Ensure the hinges are kept free of sand, ice and other debris that could impair effective operation.
- Do not disassemble these hinges at any time.
- Do not paint or apply an additional finish to the hinges.
- Never remove hinges from gate until spring tension is released.
- Do not physically cut, drill, countersink, machine or grind any part of the hinge leaves.
