

Solves the problem of gate sag on wooden gates for good!

Patented horizontal & vertical adjustment with a turn of a dial.

Self-closes gates up to 154 lb.

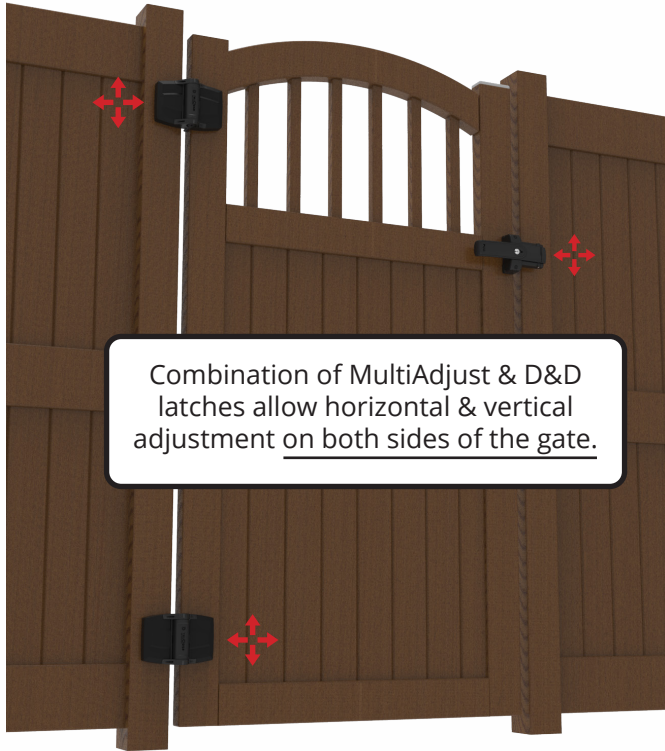

Patented 3-in-1 adjustment - no special tools required

Easy-to-identify dials:
One-turn to adjust - One-turn to lock

Heavy-duty self-closing hinges for wood or composite gates

- Up to 50% faster to install with NEW built-in brackets and less fasteners
- Over 20% increase in horizontal and vertical adjustability
- Generous adjustability allows gate gaps from $\frac{3}{16}$ " to $1 \frac{11}{16}$ "
- Patented quick-release mechanism for fast, easy horizontal & vertical adjustability
- Larger spring than stainless steel hinges; longer life, greater closing power
- UV stabilized, industrial-strength polymer & stainless steel construction
